SLIM SQUAD AT PENNSYLVANIA.

Only Fifteen Have Reported Thus Far for Varsity Basketball Team.

Philadelphia, Nov. 15.—Thus far only comparatively few candidates have appeared for the Pennsylvania varsity basketball team, although at the end of the football season it is expected that the present squad of 15 will be augmented by the addition of many more candidates, including Capt. Marks, Jourdet, Murphy and Keogh, all of whom are at present playing football.

The Quakers have suffered heavily by graduation this year, ex-Capt. McNicol, Spear and Saxe being lost last June. Marks and Walton are the only veterans remaining from last year's regular team. The freshman five of last year, consisting of Keogh, Pierce, Seyler, Jourdet and Murphy, are all in college and they will be out for the varsity this fall.

Billy Hough, the little sprinter, has signalled his intentions of playing basketball again this year. Hough was a regular on the 1908 team and was a star. Last year Mike Murphy refused to let Hough play basketball, wishing to save him for track.

RUSH FOR TICKETS AT YALE.

Victory Over Princeton Makes New Demand for Harvard-Yale Seats.

New Haven, Nov. 15.—The defeat of Princeton by Yale on Saturday has been followed by a tremendous rush of applications at the Yale ticket office all day Sunday and yesterday, which applications the office will be entirely unable to fill. The returns for both Harvard and Yale indicate that the total number of applications is nearly or quite 60,000. Harvard applications, which must be filled, amounting to 15,000 besides thousands of others from Harvard which cannot be considered. Harvard's applications two years ago, when the last Yale-Harvard game was played here, were but 10,000. The tremendous rush has raised again the question of a stadium for Yale, but athletic management says that such a stadium would have to accommodate not less than 50,000 spectators, and by the latest estimates would cost between \$500,000 and \$600,000.

DETROIT WANTS BOB GROOM.

Jennings Thinks Washington Player Would Fit Into Tiger Combination.

Washington, Nov. 15.—Previous to his departure for the South Sunday night, Hugh Jennings, manager of the Detroit Tigers, announced that he was in the market for Bob Groom, whom Manager McAleer of the Washington club is thinking of trading this winter. Jennings declared that Groom would fit in nicely into the Detroit club.

Regarding the Detroit training quarters for next spring, Jennings said he was undecided, having several places in view. He is in quest of a good inland city, having a grass diamond and ample hotel accommodations. He imagines that he will be in the South for nearly a month.

STUDENTS CHIP IN FOR GYM.

Over \$13,000 Raised by Union Undergraduates for New Gymnasium.

Troy, N. Y., Nov. 15.—During the past week, the members of the freshman and sophomore classes at Union college have subscribed \$4,925 toward the proposed new gymnasium building. This with \$9,075 subscribed two years ago, by the four classes then in college, swells the total student subscription to \$13,000. To this may be added \$25,700 from the alumni. By the first of the year \$50,000 is expected to be pledged for the building, which will justify going ahead with the work.

Trenton Has 96,815.

Washington, Nov. 15.—Trenton, N. J., has a population of 96,815 inhabitants, according to the census statistics made public yesterday. This is an increase of 23,008 or 32.1 per cent. over 73,807 in 1900.

ONE-HALF BOTTLE OF THE GREAT KIDNEY REMEDY ACCOMPLISHES WONDERS

When I sent for a sample bottle of Swamp-Root, I had to make water every two or three hours through the day and night. I passed but a very small quantity, but with a sealding and straining at the end of each passage. Before I received sample by mail, I went to our best doctor (and he is second to none in this vicinity) and told him how I felt. He put me up a bottle of medicine. I was about a week taking the medicine, but was no better than when I began. I then began your sample bottle, and before I got through with it I felt a change. The sealding sensation did not bother me a few times in the middle of the day. I would not have believed such a small quantity would have done so much, but before it was gone I learned that your druggist kept Dr. Kilmer's Swamp-Root and so got a large bottle for one dollar but actually worth one hundred dollars. I only took one large tablespoonful three times a day, and before I had taken one-half bottle I was all right and have been since.

Gratefully yours,
George S. Champlin,
Aahway, R. I.

State of Rhode Island,
County of Washington, ss.

Personally appeared George S. Champlin, to me well known, and made oath that the foregoing statement by him subscribed is true.

E. R. Allen, Notary Public.

Prove What Swamp-Root Will Do for You.

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Barre Daily Times. For sale at all drug stores. Price, fifty cents and one dollar.

MEAD'S VETO IS UPHELD

On Bill Increasing Powers of State Board of Health

EXECUTIVE GIVES REASON

Vermont Legislature Opened Its Week's Work Last Night with Good Volume of Business—Many Bills Were Introduced.

Gov. Mead last night vetoed the bill which gave the state board of health control of the heating and ventilation of mills and factories, and the House, before whom the veto was sent, refused to pass it over the executive check. In vetoing the measure, Governor Mead declared:—

"The above bill provides that the state board of health shall have authority to prescribe regulations for the heating and ventilation of all mills, factories, shops and other buildings in which ten or more persons are employed. It further provides that any person or corporation failing to comply with such regulations within four months of the notice thereof shall be fined not more than \$500 nor less than \$10. This bill in effect gives to the state board of health the arbitrary right to exercise functions which have heretofore belonged exclusively to our courts of law.

"I would respectfully suggest that in my judgment the courts of this state are the proper medium through which the necessity and reasonableness of such regulations as are contemplated above should be tested. As the bill now stands, the courts have no discretion in these matters. A fine as provided in this bill, if collected, would amount in my judgment to depriving a person, person or corporation of their property without due process of law. Such a deprivation is in direct violation to the 14th amendment of the constitution of the United States of America. Hence, the bill in my judgment is unconstitutional.

"I therefore respectfully return H. 63 to the House of Representatives without my signature."

New Bills in the House.

At last evening's session of the House, the following bills were introduced:—

By Mr. Bowles of Woodford, to amend section 955 of the public statutes, relating to Sunday hunting. It provides a fine of \$100 for hunting or discharging firearms within 100 rods of a church on Sunday.

By Mr. Bryant of Ludlow (by request), to empower the auditor of accounts to sell Rock Island in Lake Dunmore.

By Mr. Stafford of Brattleboro, providing for kennel licenses and fixing a fee therefor. It provides that owners of dogs kept for breeding purposes may procure a special license fee of \$12 for 5 dogs or less; \$20 for more than 5 or less than 10; and \$25 if number exceeds 10.

By Mr. Cook of Iraaburg, to amend sections 5623, 5627 and 5629 of the public statutes, relating to dog licenses. It provides a fee of 50 cents for castrated male or female dogs; all others \$8 each. Fine of not less than \$10 nor more than \$20 for keeping an unlicensed dog.

By Mr. Fletcher of Cavendish, to amend chapter 26 and section 6151 of the public statutes, relating to the duties and salary of bank commissioner. It provides that the bank commissioner shall devote all his time to the duties of his office; he shall assist the state auditor in examination of the state treasurer's books and shall examine books of auditors. Raises salary to \$3,000 a year.

By Mr. Peck of Burlington, revising ordinances of the city of Burlington.

By Mr. Burbank of Cabot, establishing a state agency for distributing intoxicating liquors for medical, chemical and mechanical purposes only. It follows the South Carolina dispensary law.

By Mr. Fletcher of Cavendish, revising the law relating to savings banks and trust companies.

By Mr. Peck of Burlington, incorporating the Southern Vermont railroad. It provides for building a line from Windsor to Brattleboro by the Central Vermont railway.

By Mr. Peck of New Haven, relating to taxation without representation. Unmarried women, 21 years of age, are not to be required to pay taxes if denied the right to vote.

By Mr. Stafford of Brattleboro, appropriating money in aid of agricultural fairs. It appropriates \$10,000 to aid agricultural fairs.

By Mr. Corry of Montpelier, relating to confinement of persons acquitted by reason of insanity. It provides for a change of place of confinement.

The House passed two bills, one relating to the ventilation of schoolhouses and the other relating to killing, muzzling or chaining of dogs; also the trustee process bill, which came from the Senate and which was amended by striking out all after the enacting clause and substituting the House provisions on the same matter.

Senate Does Much Business.

At the re-opening of the Senate last night there was a big rush of bills, no less than sixteen being introduced, as follows:—

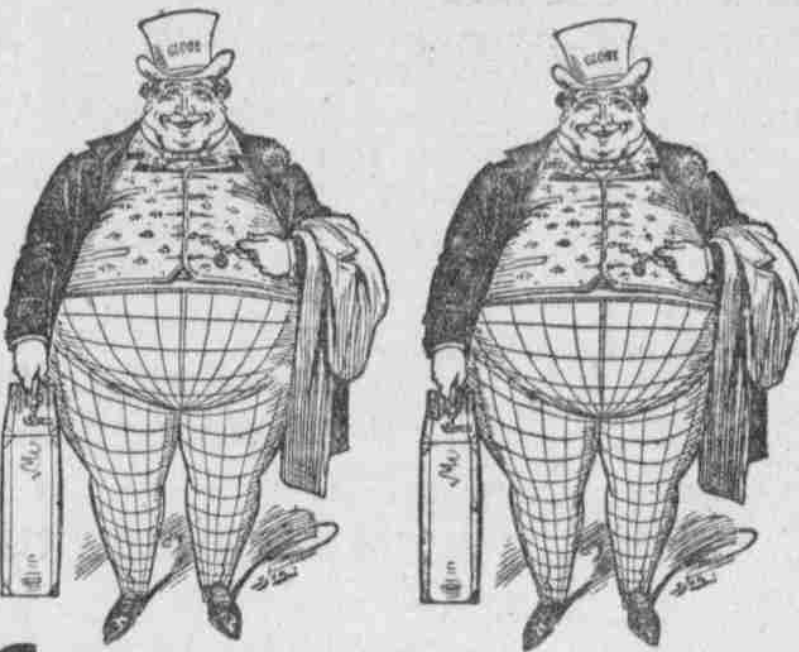

By Pike of Lamolles, relating to transportation of milk and cream. This requires railroads to make proper provision for the care of milk or cream and the return of empty cans, and to make the same charge for transportation of large as small quantities.

By Darling of Caledonia, authorizing the trustees of the state hospital for the insane to erect a building for a criminal ward. Appropriates \$20,000 to be expended by the trustees with the approval of the governor.

By Butler of Windham, to incorporate the Southern Vermont railway company. This provides for a line from Windsor to Brattleboro, running through Westfield, Springfield, Rockingham, Westminster, Putney and Dunsmuir, with a capital of \$2,000,000. Construction may be commenced within five years and the road completed in ten years.

By Clark of Rutland, providing for the licensing of dogs kept for breeding purposes. For not more than five dogs the license fee is \$25, and for more than five not more than \$50.

By Clark of Rutland, relating to inebriates. A person ordered to an institution for treatment may appeal to county court, and during the pendency let.

These measures were passed in concurrence:—

H. 67, relating to school attendance.

H. 120, relating to bridges.

H. 82, relating to examination of pupils for advanced instruction.

H. 202, relating to apportionment of senators.

H. 209, relating to beaver and otter.

H. 221 relating to pay of grand and petit jurors.

Signed by the Governor.

The governor has signed the following measures:—

Joint resolution relating to use of hall of the House for public meetings.

H. 14, an act to amend sections 6 and 11 of No. 11 of the acts of 1908, entitled, An act to abolish the board of agriculture and creating a board of agriculture and forestry.

H. 173, an act fixing the dates for holding county court in the county of Orleans.

H. 77, an act to pay John G. Sargent and Horace F. Graham the loan negotiated by them by their notes at the Baxter National bank, with interest, to meet the expense occasioned by the deficiency in the appropriation for the administration of justice.

H. 175, to amend section 625 of the public statutes, relating to sale of land for taxes.

H. 23, an act to appropriate a certain sum for support of the soldiers' home.

NO CORNELL GAME IN 1911.

Ithacans Feel There Is Little Chance of Playing in Stadium Next Fall.

Ithaca, N. Y., Nov. 15.—Cornell students feel there is little chance of the Cornell football team meeting Harvard in the stadium next season, even though the crimson management should consent to giving the Ithacans another game after their decidedly weak showing in the two contests played in Cambridge this year and last.

The Cornell faculty is opposed to permitting the Cornell team playing more than two games away from home and Cornell is already tied up to play Stagg's team in Chicago. Then there is the Penn-Cornell game, next season, and unless the Ithacans should win on Franklin field next week, it would be hardly possible for the Cornell management to insist that the Quakers come here in 1911. Cornell's full quota of out-of-town games would thus be used without Harvard on the schedule.

HUTCHINSON COMMENDED.

Brave Sailor Praised by Secretary of the Navy Meyer.

Washington, Nov. 15.—Secretary of the Navy Meyer yesterday commended James Hutchinson, a seaman attached to the United States armored cruiser Tennessee for an attempt to rescue an intoxicated man who was believed to have fallen in the Pisicagua river of Portsmouth, N. H.

Hutchinson, who is about 23 years old and a native of Ellington, Mich., on the night of Oct. 1, jumped overboard from the Tennessee to save the man.

"While no rescue resulted, your readiness is commended," yesterday wrote Secretary Meyer in his letter of commendation to the seaman.

FLIES TO SHORE FROM A WARSHIP

E. B. Ely Makes Successful Flight From Birmingham to Shore On Chesapeake Bay.

Fort Monroe, Va., Nov. 15.—Eugene B. Ely flew in a Curtiss biplane from the deck of the cruiser Birmingham, yesterday, across the lower end of Chesapeake bay, landing on the shore opposite the fort. In weather conditions unfavorable for flying, the daring bird man shortly after 3 o'clock yesterday afternoon glided from the platform erected on the front of the cruiser, swept down until he touched the water, then rose rapidly into the misty air of the lower bay and was off.

Four minutes later he was a lost speck on the eastern horizon and a minute later had landed safely on Wiltoughby Spit.

The impact with which the big machine struck the water after the 37 foot drop from the front of the cruiser scared one of the propeller blades as though a heavy saw had gone along its edge and a small piece was split from the blade. But not for an instant was the speed of the aeroplane lessened and it darted away with express train speed.

MAY BE TIMES' DYNAMITERS.

Three Men Left Panama for Peru before Word Came to Hold Them.

Los Angeles, Cal., Nov. 15.—A letter received Sunday by a local newspaper

from Panama says that on the arrival here of the steamer Acapulco, three men left the vessel and bought passage for Peru before the ship's officers got word that men suspected to be the Times dynamiters were aboard. The men were traveling to gether and were plentifully supplied with money. They boarded the vessel at San Francisco.

The letter giving this information was written by John V. H. Berry, chief engineer of the Acapulco, on Nov. 7. He says no attempt was made by officials at any of the Mexican ports at which the ship stopped, to search the boat, nor were any questions asked concerning the passengers. The men were steered passengers and answered in a degree, the description of the dynamite suspects. They were overheard, Perry writes, to remark that "it would be safer to go to Peru than to cross the isthmus to Colon." Perry says the news that the trio might have participated in the plot in Los Angeles was first received by

the ship's crew after the men had left the vessel.

The Acapulco left San Francisco for Panama four days after the explosion in the Times building.
